## VAMIZI WEATHER

Vamizi's climate is described as tropical. Its low-lying offshore position means that it is not strongly affected by local weather patterns and is protected from extreme weather. The hottest months are October to April with a monthly average between 27°C and 30°C. From January to March there can be tropical rain showers.

The drier months are June to September with a monthly average between 26°C and 27°C. The water temperature is at its warmest from January to March (28°C to 29°C) and at its coolest from July to September (25°C to 26°C).

There are two trade winds that prevail along the Mozambique coast: the Kusi (Southern trade wind) blows from April to November and the Kaskazi (Northern trade wind) blows from December through to March
